## Indo-German Urology-Project

Please let me introduce ourselves in a few words. We may not be the largest clinic in our federal state, but with respect to some aspects, we are the most innovative. For example, we are the pioneers in digitalization and we are the first clinic in the German State of Saarland with the renowned KTQ quality certification as well. Not to mention our urology department in Sulzbach, where the newest minimal-invasive technology for diagnostics and treatment are administered. Besides the medical technicalities which will be duly addressed through our doctors, allow me to take you back in history. Back to the roots of "Knappschaft".

**Andrea Massone**  
(Managing Director)  
Knappschaftsklinikum Saar
