

COMPREHENSIVE CARDIAC CENTRE

In B. K. L. Walawalkar Hospital, Comprehensive cardiac care centre Funded by Bajaj Finserv , a well-equipped advanced 'Cardiac Theatre' facility has been started from 9th June 2018. It has state of art facilities like...

- ISO 5 Modular O. T. Epoxy floor, aluminum silicate ceiling to prevent fungus, Stainless Steel walls to maintain temperature and sterility.
- Air handling unit to minimize infection.
- Holter monitoring facility.
- Trans esophageal Echo to diagnose ASD, VSD, PDA and closure.
- Pacemaker.
- All surgical equipments are German made. OT lights are of Simon's with each dome having 16 flowers and total 48 LED lights to prevent heat generation.
- Team of full-time cardiologist. Radio graphers, Cath lab, Technicians and cardiac nurses in campus.

COMPREHENSIVE CARDIAC CENTRE

- **Dedicated out-patients unit:** For provision of consultation/examination and patient support/information services.
- **Non-invasive investigations unit:** For undertaking electrocardiograms (ECGs), Ambulatory blood pressure monitoring, echocardiography, and analysis of pacemakers and other implantable devices.
- **Intensive Care units (ICUs):** for the continuous monitoring of patients suffering from cardiac abnormalities or acute cardiac emergencies.
- **Electrocardiogram (ECG):** An electrocardiogram (ECG) is a test that checks for problems with the electrical activity of your heart. An EKG translates the heart's electrical activity into line tracings on paper. They are called waves.
- **Cardiac Stress Test or Treadmill Test (TMT):** is a test used in Medicine and Cardiology to measure the Heart's ability to respond to external Stress in a controlled clinical environment.

- **Echo Cardiography (2D Echo):** Echocardiography routinely used in the diagnosis, management, and follow-up of patients with any suspected or known heart diseases. It is one of the most widely used diagnostic tests in cardiology. It provides helpful information like the size and shape of the heart (internal chamber size quantification), pumping capacity, and the location and extent of any tissue damage.]

- **Pathology services:** Complete Blood Count / ESR, Blood Sugar (F + PP), Blood Urea Nitro./S. Creatinine/S. Uric Acid, Lipid profile, Urine Routine

- **Facilities for diagnostic imaging and interventional radiology, Chest X-Ray, CT scanner.**

- **DSA Facility**

SERVICES AVILABLE

1. Angioplasties
2. Angiographies
3. Valve replacement
4. Pacemakers
5. Echo with Doppler's'
6. Philips cath lab and DSA system
7. IABP (Intra-aortic balloon pulsations)
8. Holter System

Free Cardiology Treatment Under Mahatma Jyotirao Phule Jan Arogya Yojana for economically backward patients

Angioplasty

- PTCA Additional Stent
- Coronary Ballon Angioplasty
- Peripheral Angioplasty
- Renal Angioplasty

Cardiology Pacemaker Implantation

- Permanent Pacemaker Implantation
- Temporary Pacemaker Implantation

Cardiology

- Pulmonary Embolism
- Acute MI Requiring IABP Pump
- Thrombolytic Therapy for Acute MI
- Acute MI With Cardiogenic Shock

Required Documents for Schemes

- Patient Photo
- Ration Card
- Aadhar Card
- Patient Income Certificate
- All Report
